No. 48

## Passenger Brakeman Is Hurlled From Train

Mysterious Death of H. L. Starr of Nevins Avenue, Wednesday Morning.

A mysterious and fatal accident happened on the Santa Fe at Miller, a small town 25 miles this side of Fresno, Wednesday morning at 1:30, when brakeman H. L. Starr, on westbound train No. 11, Conductor Apling in charge, was killed by falling from the train.

As the entire train is vestibuled, the mystery of how he met his death cannot be solved.

The body was found twenty-five feet from the track on the left side of the train, and the trainmen say that every bone seemed to be broken, having undoubtedly struck the fence that connected with a cattle-guard.

The observation coach on the rear was vestibuled, and it is thought that he may have had trouble there with hoboes, who threw him from the train. However, this is only supposition.

Starr has a wife and family here in Richmond who reside on Nevins avenue between Second and Third. The remains were prepared for shipment to Richmond at Madera. They will be reshipped to Oklahoma City for interment.

Starr was well known among the railroad men, and was a reliable employe.

## PERSONAL AND LOCAL

D. W. McLaughlin is in Salt Lake City. A local lodge of Sons of Veterans is being organized.

Robert Gignoux of San Francisco is taking in the sights at Panama. Joe King spent several days in Gilroy visiting relatives. —Gilroy Gazette.

Editor Mobley of the Santa Rosa Democrat was a Richmond visitor Sunday.

John Word, the contractor, was "touched" for \$35 by a burglar Tuesday night.

The six room modern cottage on 4th between Bissell and Chanslor is nearing completion.

The Gusto Vesta will entertain a whist party at Bank hall Saturday night, December 13.

The children's room in the basement of the public library was formally opened Tuesday.

Sheriff R. R. Veale was granted a sixty days leave of absence by the board of supervisors.

Mr. Geo. W. Ryan is spending the week end visiting her sister, Mrs. E. A. Prizer of Merced.

Harry Beale, 21, San Pablo, and May Alice Rowers, 18, of this city, have secured a license to wed.

Postmaster Barber of Rust, was in Richmond Tuesday on business connected with Stege and Rust sanitary district.

## Majority in Bay Cities Favor 8-Hour Law

Petition Filed With Secretary of State Contains Required Number.

SACRAMENTO, Nov. 27.—The universal eight-hour law seems to be popular with the masses, according to returns filed here with the secretary of the state. The measure will find a place on the ballot at the state election next November without a doubt.

The Alameda county petition recently filed contains 12,378 names. As 30,000 names are required, and 29,000 have been secured, there is a question about the proposed initiative proposition becoming a law, notwithstanding some vigorous protests by certain interests. How the farming and fruit interests will meet the question remains to be seen. It is claimed that farmers cannot handle crops during the rush season on an 8 hour basis. The high cost of living agitator also says that the farmer will raise the price of products, and that eggs will be a dollar a dozen and potatoes higher priced than bananas. Others contend that Burbank will be compelled to come to the rescue of common people with some kind of "forage," the spineless cactus food product, or some substitute that will afford relief to a people "over-taxed and underfed."

The initiative appeal for the 8-hour law provides that no employes in any occupation can be required to work more than eight hours a day and provides fines and imprisonment for violation. More than 800 persons signed the Richmond petition.

## New Ferry Service.

The additional ferry service may soon operate between Point San Quentin and the Santa Fe railway docks. The crossing via Belt Line to Point San Pablo may soon be made to Point McNear likewise. These would be a fine saver.

## Wet Wash Laundry.

A wet wash laundry will soon accommodate residents of Richmond with that feature of laundry work, said to be labor saving and satisfactory to the housewife. Sonoma county capital is to promote the project.

## Railway Extension.

The Key Route will extend at once to Richmond, and the San Francisco Oakland Richmond Terminal railway company will build the extension of the Sixth street car line through the Seventh street viaduct when financial conditions can be met, which will be in a few weeks.

## Santa Fe Library.

The new Santa Fe library and reading room will be a one-story mission style building wired modern for the exhibition of "movies" to the employes, their families and friends. Tourists come to California to see the missions. On the Santa Fe system travelers see the practical workings of the mission style of architecture at every city.

## All Hands Pleased.

At the city council meeting Monday evening it was decided not to send a representative of Richmond city government back to Washington. Lee D. Windrem spoke at length against the matter, Councilman Follett felt the force of Windrem's argument and spoke against it. Councilman Lane, the newly elected, spoke against it, following the lead of Windrem and Follett. The council voted against it. So the naval board at Washington, D. C., December 2, will be without a Richmond city official as representative of her rights. Windrem was highly pleased. Follett was greatly pleased and Lane was a little pleased.

## Open Air Theatre.

Richmond would support a good open air theatre on the Greek or Roman pattern. The north side of El Cerrito hill near the boulevard is discussed as a central location.

## BOOSTERETTES.

Burg Bros. may soon build a residence in Richmond costing \$20,000.

The Masons are making progress with arrangements for a beautiful Masonic Temple.

What large tract owner could assist in starting a playground for children in a central location?

The Loyal Order of Moose has a site in view for their home. It will probably be a three story building.

A national park in the bay between Goat Island and Brooks Island in front of the naval base will look good.

In the not far distant future a labor temple that will be a credit to this city will be erected on the west side or on some site near Macdonald.

In the early spring the Southern Pacific company will rush its work on the erection of the \$50,000 depot on Macdonald avenue with a lawn in front.

Abe Martin says: "It 'pears that the widening of Tenth and Twelfth streets, like some wedding, is, is, is, unavoidably delayed."

The boosters of Richmond all boost. They have the expository spirit. No one knocks his neighbor. There is a strong commercial tie that binds all to prosperity.

The Santa Fe will build on the west end of Macdonald avenue, a beautiful mission style depot, two stories to accommodate the service of local and overland passenger traffic.

More of Richmond tract owners will build residences and reside in Richmond. They say that Richmond is a good place to reside, where they have sold so many lots, showing they have confidence in our city.

Sheriff R. R. Veale is an arch booster for highways and for the naval base between Oakland and the long waterfront, through Richmond and Martinez. Baby Richmond is in the center. Sheriff Veale is in Washington now.

The Odd Fellows are determined to purchase a site and build a beautiful Odd Fellows hall, a home for the future. There are only a few months left when the crowds of the big exposition will arrive and they will be ready to receive their friends.

Richmond will have no trouble in the future about going and coming on railway trains, electric trains, local electric cars and boats. Point Orient, Ferry Point, Ellis Landing, San Pablo and Albany will be important points of busy life in transfer exchange.

Cutting Knows. Henry Cutting, Jr., is a good lawyer and business man, a representative commercial man and he will doubtless answer questions satisfactorily about Richmond, Albany and their shipping.

Can't Wait Five Years. An Oakland booster for the naval base seemed to think that Richmond would get her benefits in three or five years. Mayor Mott wants a naval harbor from Richmond to Hayward with Oakland as center. Richmond's boosters want naval developments from Oakland to Martinez, which places Richmond and Albany in the center.

Can a Citizen Have a Fence? George Lee is determined to find out the rights of an owner of property. Whether the city can confiscate his property seems to be the question at issue which will be fought out in the courts. A citizen of the United States, Lee thinks, should be privileged to build a fence on his own property if he chooses without interference.

## North Richmond Is Attracting Attention

Sixth Street Car Line Will Soon Enter This Section—S. P. Electric Coming

Mr. Morseman of the firm of Morseman & Keller, was over from the San Francisco office this week attending to business relating to the firm's improvements in North Richmond. Mr. Morseman is one of the kind of dealers in town lots who believes in increasing property values by making improvements, not in speculating entirely in the "raw material."

Morseman & Keller have built many cosy homes on their North Richmond property. They do not stop at street work and then peddle the lots out to non residents who are bargaining for speculation purposes only. This firm has installed a good water system, the purest of water being served the residents from wells connected with tanks and then piped throughout the tract to users.

It is such men as Morseman & Keller who cause street railways to penetrate the outlying districts and induce home builders to improve the vacant property.

The Sixth street line will soon be extended into North Richmond and then this property will be more desirable, for it will only require ten minutes' ride from Sixth and Macdonald for residents to reach their homes.

The S. P. will soon begin construction work on Tenth, as their franchise calls for three years, with one more year to go. This line will make the loop of North Richmond, connecting directly with the waterfront at what is now known as "Ellis Landing" at the foot of South Tenth.

The elevation of this North Richmond property is 18 feet higher than Macdonald, insuring ideal sanitary conditions. The water supply is of the best. Transportation facilities will soon be unequalled in the bay cities' district.

Aquatic Sports. Richmond should have a good bathing resort with floats, place for boating, and boats for our practice. Chicago has introduced a swimming course in its schools.

PERSONAL AND LOCAL.

Mr. and Mrs. H. C. MacDonough were tendered a surprise party Friday evening, in commemoration of their 28th wedding anniversary.

Judge Opsahl has returned from a trip to Southern California, and feels benefited from the effects of the balmy climate and the recreation.

Mrs. E. A. Perry of 807 Clay street, Oakland, was a Richmond visitor this week. She was looking after her property interests on south Tenth street.

Must Be True. "Printers' Ink," authority on advertising, says that "One thousand circulation of a labor paper is the equivalent to six thousand of any other paper." The Terminal's advertising columns reach the places that bring results.

Busy Day For Marshall. Tax Collector Marshall experienced a busy day Tuesday, this being the final day for paying taxes before becoming delinquent. It is estimated that \$28,000 was paid in, which included the mail receipts not received up to office closing time Tuesday evening.

Calvary Baptist Church—Sunday school at 9:45, preaching service at 11. B. Y. P. U. at 6:30. The evening service begins at 7:30. The sermon Sunday evening will be an answer to the sermon last Sunday. On Nov. 23 the pastor preached on "Richmond Gone Mad." This coming Sunday evening the subject of the sermon will be "Richmond's Greatest Need." W. S. Stewart, pastor.

SPRING CHICKENS and hens wanted; will pay the highest market price. No. 720 Macdonald ave.

## "CHIMES OF NORMANDY"

The chorus was excellent. It is said the whole bunch are experienced professionals.

Oh you Snee! You are not to be sneezed at. You have Ferris H. beat on the part.

Mrs. Dr. C. R. Blake is in a class by herself. As a coquet in the character of Serpolette, she excels.

Miss Edna M. Dixon as Germaine, so coy and shy, acted the part in a pleasing manner. She made the real hit of the evening at the Macdonald avenue show.

The absence of tightness was disappointing to many of the "boys" and married men, who were misinformed in the matter. It is not generally known that tightness are not required in the "Chimes" chorus. However, the absence of tightness may have caused the light attendance at the Point, although many attribute the modest box receipts to J. Pluvius, who seemed to have possession of the "boards," as the French horn player, drums and traps man can testify to, the leak in the roof filling their instruments with rainwater. Bert Lange carried his part through without a break. He deserved the bouquet. There were others. Frank Tiller (wrong page) made some good local hits. But then, without Snee & Martin the "Chimes of Normandy" would not have been so interesting to the musically inclined. Under their able direction it was a success at the Richmond theater on Macdonald avenue.

Mrs. J. O. Cady Entertains. Mrs. J. O. Cady, 160 6th street, entertained a party of Oakland and San Francisco friends at luncheon Tuesday. The genial hostess was voted many happy returns by her guests who, before leaving, conferred upon her the rank of "Philemon," something new in Richmond social functions.

County Line Blind Jim choked up a little when he received a big key and a handful of silver coin yesterday. A happy day for Jim.

Knows How. C. Barbikas, manager of the new Star Restaurant and Lunch Counter, knows the trick of catering to the public. He pleases the most exacting, in quality and price, the latter to suit one's pocketbook. No epicure, however hard to please can find a more desirable place to eat.

Miss Jennie Dahlstrom has resigned her position in the office of Tax Collector M. W. Joost. Miss Helen Robrecht has been appointed to the position.—Standard.

Judge Roth read the President's proclamation yesterday at the Presbyterian church where union praise services were held.

The Majestic puts on swell shows.

## HUERTA'S DAY OVER WILSON'S BELIEF

### Administration Calmly Awaiting Disintegration of Dictator's Power

### Influences Now at Work Eventually Will Compel Mexico's Ruler to Give up Government Reins

Washington—The Washington Government believes the power of the Huerta Government is slowly "crumbling and disintegrating."

The impression that the Huerta Government is fast losing its control over territory hitherto dominated by it is based on dispatches to the State Department. These show also that diplomatic pressure from without is weakening the resources of the provisional government.

The president holds the view that as a result of all the influences now at work Huerta will slowly but inevitably be compelled to retire.

No positive steps have been taken by the administration within the last few days to compel a compliance with the demand for the elimination of Huerta.

No preparations have been made for a blockade of Mexican ports.

In Huerta's message to the Mexican Congress his request for sanction of his acts was regarded as significant, as was the intimation that if the Congress did not approve of his assumption of dictatorship or previous conduct he and his cabinet would be perfectly resigned to the judgment.

There are many people here conversant with the situation who believe that Huerta merely wishes for ratification of his acts so that he can retire in a dignified way.

Foreign interests generally will be protected by the United States. At Tuxpan, in particular, special effort was made to protect British interests pending the arrival of the British cruisers. The sending of the English ships is in line with previous notification to the United States and is regarded as a normal move taken in emergencies such as exist at Tuxpan. It is intended to have a sobering effect upon those constitutionalist officers, who, according to office reports, have announced their hostility to English interests.

The landing of marines has not been found necessary and no instructions to that effect have been sent nor has there been any request for such instructions.

Meantime Admiral Fletcher will be expected to take whatever steps he deems necessary to protect all foreign interests.

These salient facts were obtained from those with whom President Wilson discussed the Mexican situation.

Washington—Rear Admiral Fletcher, commanding the American fleet on the east coast of Mexico, cabled the Navy department a message he had received from General Aguilar, the Constitutional leader who has occupied the vicinity of Tuxpan, giving assurance that American and other extensive oil interests in that territory would be protected.

General Aguilar's message, sent in reply to Admiral Fletcher's demand that no harm should come to foreigners or their property, said:

"I am governing on a constitutional basis, my attitude being to guard the interests of all foreign and domestic oil corporations existing in the territory I occupy, fulfilling in this manner the demands of civilization and not being governed by caprice or vengeance."

Officials here think this means there will be no troublesome complications as a result of Aguilar's occupation of the oil fields territory.

### Railroad Inaugurates New Service for Small Farmer

San Francisco—A special freight service, designed to help the small farmer and gardener and also to prevent as far as possible the great loss of food products and garden truck due to the inability of the small shipper to market his goods profitably, was inaugurated last week by the Southern Pacific Company.

In addition to its present regular refrigerator train service, the company will dispatch, at stated intervals and over the lines traversing agricultural territory, special ventilator cars. These cars will pick up small shipments and, on reaching a terminal, the shipments will be transferred, each kind of commodity being sorted and shipped in carload lots to the markets that are available.

### Mail Your Christmas Gifts Early, Pleads Postal Head

Washington—Aid to Santa Claus, who in this case means the overworked Christmas season mail clerk and carrier, has been extended by Postmaster-General Burleson. He ordered sent to the 60,000 postoffices throughout the country conspicuous placards requesting everybody to mail their Christmas parcels early, wrap them securely and address them plainly.

Brokers Desert Wall Street  
New York—Scores of brokerage firms and small investment concerns doing business in Wall Street will go out of business the first of the year owing to the prolonged absence of speculators from the market.

## News of Pacific Coast Condensed

San Bernardino—A fall from a tree, which replaced a dislocated kneecap, has cured for F. J. McKinney an injury 20 surgeons pronounced incurable.

San Francisco—Reports from many California cities indicate that the rainfall this season has been about 25 per cent more than was registered last year for the corresponding period.

San Diego—Three unloaded torpedoes, each worth \$5000, were lost during the target practice off this coast last week. The officers believe they will eventually be washed ashore.

Washington—The Interstate Commerce Commission suspended the proposed increase on lumber over the Southern Pacific Railway from points in California to points in Nevada two years from January 1.

San Diego—By flying upside down and looping-the-loop in an aeroplane, Lincoln Beachy has re-established himself as the equal of any aviator in the world. He first performed this feat at the aviation field here last week.

Sacramento—Figures compiled by the secretary of state show that candidates in order to get on the party ballot for the primary elections, need file petitions containing one-half of one per cent of the strength of the organization at the last general election.

Eureka—A resolution petitioning the State Railroad Commission to visit Eureka and appraise the holdings of the Eureka Water Company was adopted by the City Council. This is preliminary to submitting the question of purchasing the plant to the voters.

Visalia—It is estimated that the citrus crop for the present season in Tulare county will be 45,000 carloads, worth approximately \$4,000,000. If these figures hold good, Tulare county will advance from second or third place as a citrus county into the front rank.

Los Angeles—A bench warrant has been issued for Mrs. Imogene Huey, suffragist leader, for not appearing when her name was called to answer to a charge of grand larceny, said to have consisted of obtaining \$215 by trick and device from a former employee.

San Francisco—A year in San Quentin prison on charges of burglary was the sentence that Superior Judge William P. Lawlor gave Maud Howard, also known as "Happy" Howard, and George Riley. The pair were arrested in a downtown department store for shoplifting.

Redwood City—The grand jury of San Mateo county, composed of eleven women and eight men, visited the county poor farm and found the inmates were well cared for by Superintendent Eubanks. It is possible that the grand jury will recommend the construction of a new poor house and county hospital.

San Bernardino—Dr. F. G. Wishard, former secretary to the medical superintendent of the Hospital for the Insane at Patton, pleaded guilty to the embezzlement of funds belonging to patients, and Judge Oster of the Superior Court ordered him placed on probation under a suspended sentence of three years in state prison.

Sacramento—One of the purposes of the hearing to be held here December 8th and 13th before Special Examiner Hart of the Interstate Commerce Commission is to investigate a proposed increase in rates on vegetables and fresh fruits from California points to Nevada and other states. This increase approximates 25 per cent.

San Francisco—One of the most successful blood transfusion operations at the Central Emergency Hospital was performed when the life of Salvatore Florio, 22 years old, a sculptor at the Exposition, was saved a few days ago. Vernon H. Jones, 20 years old, who is also employed as a sculptor, gave his blood for his friend.

Sacramento—The first report of the Sacramento Valley Rice Association shows the output at the farm conducted under the supervision of the United States Department of Agriculture exceeds that of the plantations in the southern states and the Orient. None of the varieties yielded less than 4500 pounds an acre and some went as high as 6600.

Oakland—Adam Nisbett was granted a divorce from Mary Nisbett after testifying that she had treated him cruelly. He told the court that he scrubbed the floor and washed the dishes, and was rewarded by being "beaten up." He said that she kept him running errands for her, and when he was slow she attacked him with any article close at hand.

Alameda—The Board of Education denied the request of Alameda local of the Socialist party for the establishment of a civic center in the local schools. The Socialists' petition recited that under the new state law action should be taken providing a meeting place for the discussion of educational and political matters. The district attorney notified the board that it is not mandatory, but optional, as to whether a center be established.

### On U. S. Payroll 64 Years

Washington—With the reputation of being longer in the government service than any other man in Washington, Archie Lewis, in charge of the robing room of the justices of the Supreme Court, died here on the 26th. He had been on the government payroll 64 years and contended he had served two-thirds of all the men who ever sat on the bench of the Supreme Court. He came to the court in Chief Justice Taney's time.

## NEWSY NOTES FROM NATION'S CAPITAL

### Conservation Advocates Make Protest Against Oil Land Squatters in California

### Washington's First Militant Suffragette Fined \$1—No New Year Reception by Wilson

Washington—Francis Cuttle of Riverside, president of the California Conservation Commission, and Mrs. Elliott of Alhambra, chairman of the forestry section of the California Federated Women's Clubs, accompanied by Representative Kahn, conferred with the Department of the Interior and Department of Justice officials concerning persons unlawfully using government oil lands in California. The visitors protested to the officials against the oil land squatters. They were assured that all violations of the law regarding the oil lands would be vigorously prosecuted.

Washington's campaign as the meeting place for the special Republican National Convention to be held next year is well under way. A special committee of the Chamber of Commerce, Board of Trade and Retail Merchants' Association was appointed, with instructions to make a systematic fight for the convention. A large number of Republican Congressmen favor Washington for the convention.

When the senate assemblies for its last meeting of the special session it will meet at 11 o'clock on the morning of December 1 and continue until noon the hour the regular session begins. In that way there can be no recess—not even constructively—and no fight over the much mooted question of mileage. This was agreed on by the leaders as the solution of a problem that threatened to become a tangle. The house leaders will stand by the senate programme.

Senator Pittman of Nevada, chairman of the senate committee on territories, speaking before the Mississippi Society of Washington, declared that Congress at the next session would authorize the building of a government-owned railroad to penetrate the Alaska oil fields.

Thomas Rees, editor and owner of the Springfield, Ill., "Register," and former state senator, was appointed commissioner general to the countries bordering on the Mediterranean, in behalf of the Panama Exposition.

There will be no New Year's reception at the White House. President Wilson announced that during the holiday recess of Congress he would take a ten-day vacation.

Representative Booher of Missouri demands \$200,000 for experiments toward the prevention and cure of hog cholera. Senator Pomeroy has asked the senate to pass a bill to provide \$500,000.

Miss Lucy Burns, the capital's first militant suffragette, paid a fine of \$1 in the Police Court for chalking the White House sidewalks with "Votes for Women."

### Hunter Lays All Night With His Arms Seared by Flames

Vallejo—With his arms literally cooked to a crisp and his shoulder, neck and face burned, blistered and blackened almost beyond recognition, Thomas Russell, market fisherman and duck hunter, laid on a barge in solitary torment all night, half-delirious with pain and making frantic efforts to summon assistance. He was suffering from injuries received when a gasoline stove exploded.

When the pain became intense he soaked his cooked arms in the freezing bay water, but that only served to aggravate the hurt. He was picked up in the morning by a passing launchman and brought here for treatment. He is almost a nervous wreck as the result of his terrible experience.

### Home Rulers and Antis Make Ready for War in Ulster

Dublin—In view of the fact that the Orangemen of Ulster are forming an armed volunteer force to resist home rule, the Nationalists have decided to adopt the same tactics. A circular has been sent to all members of the Nationalist organizations announcing that it has been decided to form a National volunteer force to secure and maintain the rights and liberties common to all people of Ireland.

### Hetty Green, 78, Tells How to Live to Ripe Old Age

New York—Hetty Green was 78 years old a few days ago and gave this recipe on how to live to that ripe old age:

"Fear God; do justice to everybody; have a clear conscience. Most people who worry themselves into early graves do so through a stricken conscience. With a clear conscience one has no worry and long life follows."

### Auto Displaces Stage Coach

Merced—The first automobile stage to be run from El Portal into the Yosemite valley, made the trip a few days ago, having covered the distance of 14 miles in one hour and 35 minutes. The horse-drawn stages, used in the past required four hours for the journey.

## GOLF

Queen Mary of England is said to be a golf enthusiast, and may play at Balmoral.

## TENNIS

Los Angeles wants the 1914 national lawn tennis tourney, annually staged at Newport.

## HORSE RACING

Dudie Archdale is one of the wonders of the turf. Every one of her victories is popular.

Westerville Girl was easy for Dr. Thorne at Columbus. Snow's trotter went a good race when he was ready.

College Gent, probably from the McLachlan farm at Cathlam, picked up \$7,250 in the pacing classes in the northwest.

Sherman Audubon, by Edward Audubon out of Lady Gail Hamilton, has been a mile in 2:11, and will be held over for 1914.

Winners of more than \$10,000 in the trip this year are Tenara, Lord Dewey, Etawah, Reusens, Judson Girl and Frank Bogash, Jr.

King Cole (2:05 3/4), by Bingen, out of Redinda, is dead. This pacer figured both on the mile and half mile tracks and was a good racing proposition in his day.

Lord Dewey won the Grand Circuit 2:15 trot at Detroit. The purse was for \$10,000 and made the third stake of that size that the Lord has taken down this season.

## BASEBALL

The pennant in the Border league was won by Ypsilanti.

Joe Wood's brother Pete, after much drifting, finished the season with Lowell, pennant winners in the New England league.

Rumors emanating from Montreal are that Fred Parent of the Baltimore Orioles will succeed Kitty Bransfield as manager of the Royals next season.

Branch Rickey, the new manager of the St. Louis Browns, has no bad habits. He neither drinks, smokes nor swears, and refuses to play baseball on Sunday.

Fort Wayne has formerly released Jimmy Burke, who managed the team the past season, in order that he may accept a position as scout with the Detroit club.

Manager Harry Wolverton has wedded himself to the coast. He has decided to make his home in Sacramento this winter, removing his family from the east.

Johnny Kilgus has returned to his home in Kansas City to look after his business affairs and makes his annual announcement that he has retired from baseball.

Manager Chance of the Yankees has decided that his Eastern Association recruit, Bill Holden, is not quite fast enough and he will be sent down for more seasoning.

Dick Peebles, who as manager of the Denison team of the Texas-Oklahoma league copped the pennant in the season recently closed, has been signed to lead the team again next year.

## FOOTBALL

Joe Horner, former Michigan university captain, will help train Germany's athletes for the 1916 Olympiad.

Coach Yost of Michigan is planning several shifts of his men, believing in this way he can bring out the best play.

The University of Minnesota is about to resume athletic relations with Michigan, according to reports on the campus there.

Students of Purdue university have voluntarily become detectives to aid in keeping undesirable persons off the football field.

With the change of coaches at Franklin and Marshall college, the Yale system replaces the Penn form. Prof. Mayser succeeds Dr. Draper, the latter a former Penn line star.

Coach Yost avers that he has everything but a good heavy kicking fullback. The Michigan coach claims that if he can land a 190-pound kicker he will have the strongest eleven Michigan ever saw.

Wire Clothesline. A wire clothesline which becomes rusty can be remedied by painting it with a coat of white paint and when dry paint it again. These two applications will keep the line in good shape for a long time.

Pie-Making Tip. Sprinkle a little borax on the pie plate before making a pie and you will have the bottom crust as light as the top, as the borax absorbs the moisture.—Los Angeles Express.

## ONE OF PRINCETON'S STARS

Left Tackle Phillips, One of the Mainstays of Princeton's Football Team.

## BILLIARDS

Benny Allen of Kansas City won the pocket billiard championship of the world by defeating Alfredo De Oro, 600 to 516, in their match, which closed in New York.

## POLO

Devereux Milburn, international poloist, returned from Europe with the news that the best British polo team yet is likely to face the Americans next year in an effort to regain the international cup.

## PUGILISM

Packey McFarland, the real gentleman of the ring game, beau ideal of the crowd, announced that he is ready to quit for good. He will enter Notre Dame to fit himself for a business career.

Johnny Kilbane, the featherweight champion, is taking on weight so fast that it is predicted that he will soon be forced to relinquish his claim to the featherweight title and become a lightweight.

Ad Wolgast will settle down to the life of a ranchman when his ring days are ended.

Battling Levinson keeps on whipping all comers in the middle and heavy-weight classes with surprising regularity.

Matt Wells was given the decision over Owen Moran at Sydney, N. S. W. The battle went 20 rounds and the referee's verdict did not please the crowd, which believed that Moran should have been returned victor.

Johnny Kilbane, featherweight champion, declares he is ready to meet all of the good men in his class.

Indianapolis is to have a new boxing pavilion this winter in which bouts will be staged.

Packey McFarland has had an even hundred battles since his ring career began in 1904. There are 53 K. O.'s, 27 no decisions, 16 wins and 4 draws to his credit. A decision has never been rendered against him.

Benny Chavez of Trinidad won a decision at Denver over Frankie Coyne of Kenosha. They are bantamweights.

## MISCELLANEOUS

"Ted" Meredith says that he may run in the mile during the forthcoming scholastic season.

Fred Price, sailing the Michigan, the Chicago Yacht club entry, won the eighteen-mile race for the "Manassas" cup on Lake Michigan at Chicago.

The University of Pennsylvania has the finest system of athletics in the world, according to Carl Diem, general secretary of the German Olympic commission.

The National Aerial league has organized two great aeroplane tours. The first will be from Paris to Cairo, Egypt, and the second from Paris to the Persian gulf.

Frank L. Kramer has been officially declared America's cycling champion for the thirteenth consecutive season. Kramer's longevity records put him in a class with Cy Young, Mathewson and Plank, by heck.

Sam Gordon, the star oarsman of the Vesper Boat club of Philadelphia, has matriculated in the freshman class of the University of Pennsylvania and will be a candidate for the oarsman crew.

Used to it. "I'm afraid the piano in the parlor disturbs you after you have retired for the night," said the country boarding-house keeper to the new boarder.

"Not at all, ma'am," replied the new-comer; "you see I'm a boiler-maker by trade."

Baked Rhubarb.—Peel the rhubarb, cutting into inch pieces; fill a baking dish, cover with sugar and set in a moderate oven for half an hour. It forms its own juice and should not be allowed to brown at all; stir occasionally. A pan should be set under the dish, as the contents may boil over.

## NEWS for the YOUNG PEOPLE

### AMUSING LITTLE FUN MAKER

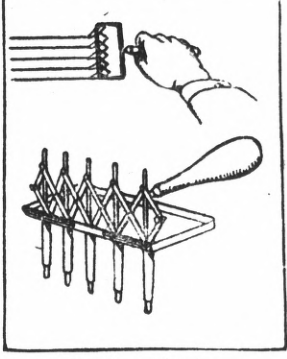

Game of "Word Rhapsody" Gives Much Entertainment—Excellent School Exercise Afforded.

With the coming of the long autumn evenings and the entertainments and parties which they bring, comes the old question: "Isn't there something new that we can play?" It is always difficult to find anything altogether fresh and original, and some of the older games, a trifle worked over and freshened up, will be found quite as interesting as anything else. For instance, there are many word games, but not one is quite like the little fun-maker known as the "word rhapsody." In playing this game each of the guests is called upon to choose one word. This word is written upon a little card furnished by the hostess. It may be an adjective, a verb, a common or proper noun, or any other word that they suggest itself. The cards are then gathered up and the hostess writes all the words on a large piece of white paper with a red pencil, so that, when hung up, it can be seen all over the room. Then each guest is invited to write a short story in which every one of the words appears, all of them being used grammatically and in a manner to make sense. The time of work should be limited to ten minutes. When the stories are complete the authors are invited to read them aloud, or the hostess collects them and reads them herself. The results are often very amusing. The rhapsody also makes a good school exercise.

## MARKER FOR A BLACKBOARD

Draws Number of Parallel Lines at One Sweep—Easy to Understand—Convenience of Device.

A blackboard marker, by means of which a series of parallel lines may be drawn at one movement, has been designed by a New York man. The chalks are inserted in holders that are mounted on a lazy-tong and the lazy-tong is a bar that in turn is set in a U-shaped frame—the frame having a handle at the back. To regulate the distance between the crayons, which means to regulate the space between the lines they draw, the lazy-tong is either extended or contracted, as the

Blackboard Marker.

case may be. There are screw means to keep them rigid in any position desired. It is easy to understand the convenience of a device like this.

## 'HOLLERED' FOR HIS BROTHER

Schoolmaster Was Unwilling to Believe Excuse Given by Small Boy for Absence From School.

Having been absent from school for a whole day, a small boy was called out from his class the next morning by the head master, who wished to know the cause. The boy replied that his brother went to have a tooth pulled out, and that he went to "holler" for him.

"What!" said the schoolmaster, "you had to holler for him?"

"Yes, sir," said the boy.

The schoolmaster believing that the boy was telling a lie, immediately wrote for his cane and threatened to thrash him soundly if he did not speak the truth.

"I am speaking the truth," said the boy. "My little sister, my brother, is a green grocer, and goes his rounds every morning; and father's got asthma very bad, and cannot call out what he's got to sell, so my brother goes with him to holler for him, and he, having his tooth pulled out yesterday, I went and did the hollering for him."

The boy was placed at the top of the class.

## GOOD STUDY IN PUNCTUATION

Eastern Educator Says Modern Writer Punctuates Too Much—Often Placed in Wrong Place.

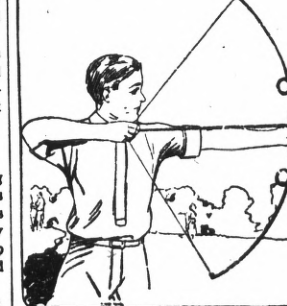

A celebrated eastern educator comma who has spent much time in studying literature comma tells us that the modern writer uses too many punctuation marks semicolon that he often gets them in the wrong place and that they are a nuisance comma anyhow comma remarks the Brooklyn Eagle period

Another shark on literature comma however comma says that it is impossible for any person to write without using punctuation marks period Being of a genteel turn comma we do not feel like coming right out and calling the latter gentleman a quotation marks lar quotation marks but we have demonstrated comma to the satisfaction of ourself comma at least comma that writing can be done without the use of any punctuation mark whatsoever period How do you like it interrogation-point.

## PASTIME FOR YOUNG PEOPLE

Bow and Arrow May Be Used Indoors if Care Is Taken to Avoid Windows and Paintings.

This bow and arrow has been designed chiefly for those interested in the outdoor sport of archery, but may

A Bow and Arrow That Will Stand Hard Usage.

also be used indoors if care is taken to avoid windows and pictures. The bow, which is 28 in. in length, is made of two pieces of strong steel wire connected to a nickelplated handlepiece shaped so that the arrow can be quickly placed in position for shooting. The bowstring is made of strong material and the arrow is of hard wood, 18 in. long, with a soft rubber tip, and weighs only 8 ounces.

## Thrifty.

"Ma," exclaimed young Teddy, bursting into the house. "Mrs. Johnson said she would give me a penny if I told her what you said about her."

"I never heard of such a thing!" said his mother indignantly. "You're a very good boy not to have told. I wouldn't have her think I even mentioned her. Here's an apple, sonny, for being such a wise little lad."

"I should think I am, ma! When she showed me the penny I told her that what you said was something awful and worth sixpence at least."—Answers.

## OLD AGE AND DIET

Physician Writes Instructively on the Subject.

After Fifty, the Amount of Food Necessary Grows Less With the Years, and Appetite Must Be Curbed.

There is a marked difference between the dietetic necessities of old age and those of earlier life. It is because many do not know this fact that they die too early, and often with great suddenness. Most of the sudden deaths you read about, following a hearty meal, in persons of fifty or more are entirely unnecessary.

In the first place, after a certain age is reached, which varies with different persons, but is passed by most of them as early as fifty, the necessary amount of food gets gradually less all the time. Now, the appetite may not get any less, indeed, may even increase; and the result is, trouble sooner or later. It is person at the age of eighty, for example, does not need more than half as much food as was needed at forty.

The actual amount of food needed in old age varies with different persons just as it does at any age. Women need less than men; those who do hard work need more than those who do less; more is needed in winter than in the summer, and so on; but the total amount needed in old age is always less than that for younger persons even if the other conditions are the same.

In old age the powers of digestion and assimilation are much less than they were when the person was younger. Growth has ceased, so that there is less call for new building material. As a rule, much less work is done, so that there is less call for food which creates energy. It follows, then, that it is not merely some of the food elements but all of them, that need reduction when this period of life is reached.

Another point of great importance is the fact that excretion is less active in old age. This means that, while a young person may with safety eat a great deal more than is necessary, an old person cannot do so. In the young the organs of excretion are strong and active, and will take care of the excess of food eaten. In old age they cannot do this; and the result of over-eating is always suffering and not infrequently sudden death, ascribed to acute indigestion, but really due to folly in diet. Luigi Cornaro, who lived to be one hundred, writes that in his old age he lived on only twelve ounces of solid food a day, bread, broth, eggs and meat.

Diet in old age, then, should be relatively small in quantity, should be easy of digestion, and should not contain a large amount of waste, that is, indigestible material. It should not be too complicated, with pastry or rich meat dishes. It goes without saying that no old person should attempt to take up a diet fad. His system will not respond to the changes demanded, and this is regardless of how good the ideas in such a fad may be for younger persons.—Ernest Robinson, M. D.

## AMERICAN CARS FOR EUROPE

Fifty Thousand of Them Will Be Exported in 1914, According to an Expert's Predictions.

John L. Poole, an export manager of the Hupp Motor Car company, makes the prediction that the United States will export 50,000 motor driven vehicles in 1914. The entire output of this country was only 55,000 cars in 1908.

"The figures I have used are not wild guesses," said Mr. Poole. "There were 85,336 motor-driven vehicles exported from this country last year, for a total value of \$26,012,334. The figures already given show the rapidity of growth in the last five years, but the greatest increase has been in the last two years."

Probably He Got It.  
 A traveler in London was set upon by an importunate Irish beggar, a shirley-lugging fellow, but with the blindest-looking tongue of one gifted. The beggar followed the traveler mouthing sweet nothings and lies.

"An' sure, your reverence, it wasn't often I've heard me mother say that we was noble by rights, and that one of the family once wore a crown of Ireland, sir." "Well, what do you want?" asked the traveler. "Would you have the crown back? I can't give it to you." The Irishman sidled a bit closer. "Half a crown 'd do, sir."

He Plagued Him.  
 The cat was having an argument with the umpire.

"I'll fix you so you won't be an epidemic any longer!" threatened the umpire, beginning to lose his temper.

"What do you mean, I won't be an epidemic any longer?" asked the cat.

"I'll send you to the bench," returned the umpire, "and then you won't be catchin'."

An Impossibility.  
 "Does your wife ever attend your lectures?"

"Of course not; that would never do."

"Why not?"

"Could any wife sit and hear her husband talk for two hours without interrupting him?"

To Polish Windows.  
 There is no need to trouble about water and soap when cleaning a window. The easier way is to crush up a newspaper, dip it lightly in paraffin, and use as a polisher. The paraffin removes all dirt and stains very quickly, and the paper gives a splendid shine to the glass, which not only lasts a long time, but keeps flies from settling.

Hard Lines.  
 Once a female always a female. Nature is not infallible, but she always abides by her mistakes.—Saki.

## FOR WOMEN ONLY

### Do You Feel This Way?

It is because of some derangement or disease distinctly feminine. Write Dr. R. V. Pierce's Faculty at Invalids' Hotel, Buffalo, N. Y. Consultation is free and advice is strictly in confidence.

## Dr. Pierce's Favorite Prescription

restores the health and spirits and removes those painful symptoms mentioned above. It has been sold by druggists for over 40 years, in fluid form, at \$1.00 per bottle, giving general satisfaction. It can now be had in tablet form, as modified by R. V. Pierce, M. D.

[Sold by Medicine Dealers or Directly by mail on receipt of 50c in stamps]

## UNDER CRUST FOR TWO PIES

Mixture That Adds to Savor of Delicious Confection Worth all the Trouble It Involves.

Mix one-fourth teaspoon each of salt and baking powder with one cup of sifted pastry flour. Measure one heaping tablespoon each of butter and lard, and if they are soft spread them out on a plate and chill them. Then chop them into the flour until well mixed. Wet with cold water to a stiff dough that may be all taken up clean from the bowl. Toss out on a floured board and pat it down until half an inch thick and a long, narrow shape.

Dredge it with flour and roll it over into a thick roll. Divide in the middle, turn each piece over and pat it out flat, and if the paste sticks and is soft, lay it away in a cold place till firm and hard. Then roll out gently, keeping the shape round and even, and roll it a trifle larger than the plate, for as you lift the paste it will shrink slightly, and it is better to push it back toward the center of the plate if too large than to stretch it to the edge if too small. Lift the edge and press the paste down in the center so that there may be no bubbles of air underneath. If you have the knack of keeping the paste round as you roll it there will be no edges to be trimmed off and no waste. Use tin or granite plates and merely dust them with flour, greasing is unnecessary. Remove the pies to earthen plates when baked.

This paste will make a very tender upper crust, good enough for every day pies, but for Thanksgiving we use puff paste.

Specially Eye and Granulation.

## PACKING THE PICNIC BASKET

Small Amount of Care in This Makes All the Difference When Supper Is Served.

Almost as much depends on the packing of the picnic basket as on the making of the picnic fare. For a moderate amount of money many things can be bought to make the work of packing the basket easy. Thermos bottles for cream and milk, special sandwich boxes, paper sets of dishes, napkins and tablecloths, paper plates and saucers to match and paper cups can all be bought.

A menu for a hearty cold picnic supper is as follows: Cold broiled chicken, stuffed tomatoes with lettuce and mayonnaise, currant jelly, buttered rolls, iced coffee and strawberry or raspberry shortcake. Each stuffed tomato can be wrapped in a damp cloth, the chicken can be packed in a paper lined box and the rolls can be carried in a box or basket. The two layers of cake for the shortcake can be carefully wrapped in a napkin. The berries, prepared with sugar, cream to whip for the shortcake and to use for the coffee, the coffee itself and the mayonnaise dressing for the salad can all be carried in fruit jars; although the cream, if there is a thermos bottle, had better be carried in that.

To Remove Paint.  
 If you get paint on clothes immediately rub the mark with a rough rag wet with turpentine. This removes the stain and does not leave a mark.

Creamed asparagus tips or asparagus tips tossed in butter are sometimes served as an entree in little patty crusts, or as a filling, with appropriate seasonings, in small dainty sandwich rolls for luncheon.

## Gets Right Twist On Rheumatism

Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism That Settles It.

Many a rheumatic sufferer has been to the drug store for a bottle of S. S. S. and been handed something claimed to be "just as good." Truly, to ask for bread and be given a stone is still in practice. If you are troubled with rheumatism in any form be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and capillary. Every membrane, every organ of the body, every annulet becomes affected as it strains the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the end of casting out every irritating, every painful, every atom of poison; it dislodges by irrigation all accumulations in the joints, causes acid accretions to dissolve, renders

them neutral and scatters these poisons formations in the nerve centers. Cause much mystifying and often baffling rheumatic pains.

And best of all this remarkable remedy is welcome to the weakest stomach. If you have dragged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

Get a bottle of S. S. S. today, and ask for S. S. S.

You may depend upon it that the store that sells you what you ask for is a good place to trade. Write to the Swift Specific Co., 224 Swift Bldg., Adams, Mo., for their Book on Rheumatism.

## MANY A MAN

is blamed for a bad disposition when it is really the fault of his liver.

will expel all BILIOUS HUMORS Get them today.

Hot Weather Dessert.  
 Spanish cream is a delicious dessert. It requires one and one-half pints of milk, one-half box of gelatine, one-half cup sugar, three eggs, and one teaspoonful of vanilla. Dissolve the gelatine in a little cold water, add the milk, sugar, vanilla and yolks of the eggs, which have been well beaten. Put on the stove and cook two minutes, then add the well-beaten whites of the eggs, stir well, and take from the stove. Pour into wet mold and set away to cool. Serve with whipped cream.

To Clean Light Woollens.  
 Make a mixture of cornmeal, a handful of borax and half a cake of mag-nesia. Mix this dry, and scrub the goods with it. To clean wool shawls, jackets, etc., sprinkle the mixture over the garment, place inside a sheet folded several times, and beat lightly. It is surprising how much the borax assists in the cleaning process. Leave for several hours and shake out the dust and dirt in the open air. It will also clean light felt hats. Use a soft brush.

Froberg, deceased, to the creditors of, and all persons having claims against the said deceased, to exhibit them, with the necessary vouchers, within four months after the first publication of this notice to the said Administrator at the office of Clara D. Horner, attorney at law, 212 Washington avenue, Richmond, Contra Costa county, California, which place the undersigned selects as the place of business in all matters connected with said estate.

Dated, September 11, 1913.

J. R. FROBERG, Administrator, with the will annexed, of the estate of Ottilia A. Froberg, deceased.

Clara D. Horner, attorney for administrator, 212 Washington avenue, Richmond, California. First 10-12, last 11-24

Notice.  
The public is hereby notified that the transfer business of Prybo & Redfield is now dissolved, and that E. Prybo is responsible for any bills contracted by M. Redfield.

Richmond, Cal., Nov. 28, 1913.

## THE TERMINAL

ISSUED EVERY FRIDAY.  
Established in 1904.  
Legal City and County Paper.

W. W. RYAN Publisher and Editor

Terms of Subscription:  
One year, in advance \$7.00  
Six months in advance \$4.00  
Advertising rates on application.

Entered as second-class matter June 22, 1904, at Richmond, California, under the Act of Congress of March 3, 1879.

Legal notices must be paid for on or before delivery of affidavit of publication. No exception to this rule.

"For the cause that had a assistance, Against the wrong that needs resistance, For the future in the distance, And the good that we can do."

## Turkey hash today—for some.

A Hayward woman is offering a dollar a quart for dead flies. Richmond fly swatters take notice.

The board of education of Salinas accepted plans for the county high school. The building will be mission style and is to cost \$30,000.

The medicine prescribed by the railroad commission for the telephone company will take effect Feb. 14 next. At that date rates will be reduced 21 per cent.

Chicago is to have a municipal Christmas tree. It will be in Grant park, which is to be transformed into a fairyland. The tree is to be brilliantly lighted with electricity, and is to be 75 feet high by 35 feet in width.

Abraham Lincoln's sister in law, 103 years old, walked to the polls at the November election in Portland, Oregon, and cast her first vote in the referendum election. Her name is Mrs. Sarah Todd.

Among the subjects to be discussed during "Ministers' Week" at the University farm at Davis, is "How the country school may train boys and girls to become prosperous and contented farmers instead of poor clerks and stenographers in crowded cities."

Alfred Russell Wallace, Britain's 'grand old man of science,' who recently passed out at the age of 90, just previous to his death, said: "I have come to the general conclusion that there has been no advance either in intellect or in morals since the days of the earliest Egyptians. Everything is as bad as it possibly can be. There exists in our midst horrors and dreadful diseases never known before. Our whole social environment is rotten, full of vice and everything that is bad."

James M. Lynch, for thirteen years president of the International Typographical Union, has resigned to accept the appointment of Labor Commissioner of the state of New York. Under the able guidance of President James M. Lynch the typographical union has become a stone wall for strength, the immense defense fund representing hundreds of thousands of dollars safely invested in gilt edge securities of the various cities of the country. Mr. Lynch's salary is now \$8,000 a year. He has 120 appointments to make.

## OPEN FORUM

To the Editor of The Terminal:

Taxation is made for improvement. These improvements are expected to derive benefits for every citizen in Richmond engaged in business or otherwise. Business licenses help pay the expenses of city government. Taxes fall the heaviest upon portions of the city where improvements are more advanced.

Improved property pays most of the freight.

Water districts, water commissioners' fees, appraisers' fees for proposed street openings, special elections for initiative, recall and referendum add to the freight bill of the taxpayer.

In turn rents advance as taxes advance, store rents and house rents and workers' wages advance to help them pay rents and installments on a street work.

Anything which lowers taxation, lowers rentals and enables the merchant to compete with the big stores in cities. The improvement and leasing of franchises on the municipal harbor, the holding of elections only at general election periods, with all election booths at school houses, the elimination of boards of appraisers, will cut down the taxes materially and hold down rentals to a minimum.

The toiler will still have encouragement to continue to reside in Richmond and will enjoy the fruits of his labors when the expenses of city government are reduced, and when the city can

## EUROPE AHEAD OF US.

President Wilson, in speaking of the advancement of our government, said:

"Most of the badly governed cities of the civilized world are on this side of the Atlantic; most of the well governed on the other side, and the reason is not accidental. We set out upon our political ventures as a nation with one distinct object, namely, to put the control of government in the hands of the people, and now, behold! When our experiment is one hundred and thirty years old, we discover that we have neither efficiency nor control. And so we are at the beginning again. We must at once devote ourselves again to finding means to make our governments, whether in our cities, in our states, or in the nation, representative, responsible and efficient."

Today there is neither a connected system nor efficiency in the conduct of the affairs of our public offices. In Alameda county, wherever investigators have gone, they have found unnecessary waste. This waste runs as high as 40 per cent in the conduct of certain county offices. The primary and regular elections of 1910 show a waste of more than 30 per cent. The registration of voters can be conducted in Alameda county with a saving of 87 per cent. Cost sheets and correlated systems of accounting are unknown, and because of the fact that so many office holders are elected by the people, and are responsible directly to the people, there is no centralized authority that can be held accountable.

This state of affairs exists in the majority of counties and cities in California and the United States. It is quite as necessary to have efficiency in public offices as it is in private corporations. The situation is becoming more and more acute, and the sooner the public awakes to the necessity of making a dollar buy a dollar's worth, instead of 20 to 60 cents' worth, the better off it will be and the lighter the burden of taxes.

## YOUNG FOR U. S. SENATE.

The straw vote postal card has made its appearance, with a ballot attached bearing the names of Henry and Rowell, candidates for the U. S. Senate. Many are scratching the above names for public preferment and writing in other names, that of Hon. Chas. Sumner Young of Bakersfield being prominent. If Mr. Young should consent to the use of his name there would be no question about his election. He is the logical candidate, a conservative progressive and near to the people. It is believed by many who are in touch with the state administration that Governor Johnson would heartily endorse Young on account of the latter's enviable record in public life, his humanitarian qualities and the close similarity of views upon progressive problems of the times appertaining to both nation and state.

If Chas. Sumner Young should permit the use of his name, there would be no opposition to his election, for he stands close to the common people, a true advocate of the cardinal principles of a government of, by and for the people.

These franchises to bring in adequate returns.

Some say they will not vote any taxes or bonds of this city for a water system. They say, wait until the thousands of unimproved lots in our city limits have more taxable value.

The mayor of Piedmont has caused a reduction of taxes on improved property and has worked a system of increased taxation on vacant real estate. One taxpayer owning both improved and unimproved property had his tax bill cut one half by the change.

It is in the hands of the people. The people rule. Amend the charter so as to equalize the burden of taxation. Let the speculator, who holds vacant lots, pay his share.

We must have school bonds, however. People want schools, and they will not move to city to house without school facilities to house their children. On the contrary, they will move away.

The city board of education of Richmond will bring the school bond question very soon.

So vote for the school bonds without fail.

With the taxation matters settled and the activity of our local banks, which are ready to "loosen up," the city of Richmond will have the largest building boom in 1914 in its history.

Z. MANN.

The Terminal printed it for me.

## "A New Suit and Gabardine For Me Saturday, Ed."

"Sounds like I was getting extravagant, doesn't it, old man? And before Christmas, too! I wouldn't have dared to do such a thing last holiday season."

"But I've learned a whole lot during this year. The most important thing I've learned is—BUY CLOTHES AT CHERRY'S ON CREDIT. I never knew what a genuine relief it is to be free from the worry of 'saving for a new suit,' until I went to Cherry's."

"A small deposit on any garment, and Easy Payments after that, either weekly or monthly, explains the 'Cherry way' in a nutshell. It's downright folly for any fellow to do without stylish clothes, when Cherry's make it so simple to be well dressed."

"I'm going to get one of their crack-jack suits and one of those new rain-coats, called Gabardines. I'll still have plenty of money left for Christmas gifts. Try and go with me."

"Where did you say their place is?"

"Oh, they have stores in three cities: Oakland stores, 528 13th street, for young men and boys, and 515 13th St. for ladies. San Francisco, 1009 Market St. for ladies and men; also 2100 Mission St. for ladies and men; Los Angeles, 636 S. Broadway for ladies and men."

## Look at This.

Richmond now has one of the best eating places in the city. Quick service, orders for banquets and weddings a specialty. Star Grill and Lunch Counter, 730 Macdonald Avenue. Phone 743.

The Standard Oil Co. has purchased the Blume ranch of 700 acres north of San Pablo. The land is to be utilized for tanks for storage purposes.
